OSHA/ANSI Standards B56.6-2016
and CSA B335**

Safety Features

Safety pins are standard on all Platform rails. Each pin is attached to the rail by a cable to prevent losing safety pins

Spring Loaded Doors Self closing and self latching doors. Built tough and allows the door to remain rigid at all times.

Safety Restraint Tie Downs are standard on all Platforms. This gives you a safe place to connect your safety harness.

End Fork Slots make it easy to transport your Platform. To be used for loading and unloading only.

Pins over your Fork Tines Each pin is chained to the Platform. Fits tines up to 2 1/2" x 7 1/2". Spacing is 30" apart

**Collapsible
for easy transportation**
